

pelletpreis.ch – Anita hands over to Anita

pelletpreis.ch, the independent Swiss platform dedicated to wood pellets, has successfully completed its generational handover.

“I have been publishing pellet prices for Switzerland since 2008. In Anita M. Fasel, Managing Director of NET Nowak Energie & Technologie Ltd., I have found the right successor from outside the wood energy industry, but no less competent,” says a delighted Anita Niederhäusern, founder and previous owner of the platform.

Since 2008, owners of pellet heating systems have been able to find the average prices for wood pellets on pelletpreis.ch every month. *“This gives them an external and independent reference to guide them when buying pellets,”* explains Anita Niederhäusern, *“a valuable guide for future heating system owners, too.”* The platform also publishes a price comparison of pellets with heating oil and gas, commentary on price trends and other news from the wood energy industry.

Today, pelletpreis.ch is an important reference for owners of pellet heating systems. Retailers and major energy suppliers also index their long-term supply contracts to the independent survey conducted by pelletpreis.ch.

“That made it all the more important to me to find a successor who knows the energy sector well, but is not tied to the industry,” adds Anita Niederhäusern. *“I would like to warmly thank the companies that have remained loyal to me all these years. I can assure you that you are in very good hands with Anita M. Fasel and her team at NET Nowak Energie & Technologie Ltd.!”*

NET Nowak Energie & Technologie Ltd. is known for its independent and objective analyses of energy issues and for operating energy platforms. The pelletpreis.ch platform is therefore an excellent fit for the company. The head office is moving only a few kilometers, from Fribourg to the municipality of St. Ursen.

“I am delighted by the trust Anita Niederhäusern has placed in me and proud to be taking over and continuing the experience and expertise she has built up over 18 years. We are taking on this succession with great respect and commitment. Our goal is to continue pelletpreis.ch in the spirit of Anita Niederhäusern and to ensure continuity,” says Anita M. Fasel.

Anita Niederhäusern will continue to support Anita M. Fasel and her team during the transition phase, allowing them to benefit from her valuable experience. *“Anita Niederhäusern launched the pelletpreis.ch platform 18 years ago and has continuously developed it since then. That represents considerable expertise. This foundation must be carefully preserved before we consider any further developments,”* explains Anita M. Fasel.

All the conditions are therefore in place to continue the pelletpreis.ch success story.
